Becoming culturally competent in a culturally complex world takes not only knowledge, but also practice and a discovery mindset. Through case scenarios, stories, and discussion, you’ll gain valuable tools and strategies that you can immediately apply to your work. Learn how to become a skilled partner and coach to every person and family in your care, regardless of their religious, spiritual, or cultural customs and preferences.

This course is designed for healthcare professionals who work in hospice, long-term care, assisted living, or community settings that provide supports and care to elders and individuals with life limiting illnesses.
