

The Creative Age at the Erickson School

Spring 2019 Exhibit: Ginger Cove

Ginger Cove is a retirement community in Annapolis, Maryland. In its ample art studio, a contented group of visual artists meet regularly to work and share ideas. Their ages range from 82 to 98. The artists have their artwork on display at the Erickson School until the end of May 2019. We encourage you to visit our office to view the art exhibit during our business hours. Please contact Jamie (jamiej1@umbc.edu) if you wish to purchase any of the artwork. She will connect you with the artist to arrange for payment and you can arrange to pick up your artwork with Jamie and the end of the exhibit.
