

# Undergraduate Programs in Management of Aging Services

THE ERICKSON SCHOOL  
OF AGING STUDIES

- **Major (BA) Management of Aging Services**
- **Minor Concentration in Management of Aging Services**
- **Minor Concentration in Health, Wellness, and Aging**

## RELEVANT, IMPORTANT, AND EVOLVING FIELD COMBINING PROFESSION WITH PURPOSE

- Unique interdisciplinary program that develops leaders of organizations that work with, or on behalf of, older adults
- Connects the brainpower of a leading research university with the practical expertise and knowledge of world-renowned leaders in the aging field
- Blends knowledge of aging, public policy, and business management to develop skills such as communication, financial acumen, and critical thinking
- The Longevity Economy will generate jobs in every field

## WHY THE ERICKSON SCHOOL OF AGING STUDIES UNDERGRADUATE PROGRAMS?

- A dynamic, experiential curriculum providing the opportunity for career exploration and development
- A program that allows the opportunity to prepare for unprecedented networking and career opportunities
- An opportunity to support the mission of the Erickson School to enhance the lives of older adults

## WHY UMBC?

- UMBC is central to Washington, D.C., Baltimore, Annapolis, and headquarters for Social Security and Centers for Medicare and Medicaid Services (CMS)
- Forbes (2021) lists UMBC among the nation's top 150 colleges and top 50 public universities. UMBC is also among the top three public universities in Maryland on the list.
